### Hope Should Join

#### Playground Group for Narrows Dam

In another column today we print the report that State Senator F. C. Crow brought back from a Murfreesboro meeting last night. The Young Business Men's Association of Murfreesboro is sponsoring a regional playground organization to promote the development of the new lake now forming behind the Narrows Dam. Completion of this organization will be attempted at a second meeting to be held in Murfreesboro Thursday, March 30.

Every town participating in the playground association will be permitted two representatives, and officers and a name will be chosen March 30.

Hope should co-operate fully in this plan. Down here in the flat country we know what the playground associations of the Ozarks do for recreational development and the tourist trade, both in Arkansas and Missouri.

The rolling hills around Nashville and Murfreesboro, lead into high mountains, almost at our back door. There are about a dozen peaks in the forest reserve just north of here that touch 2,000 feet, and one runs up to 2,400. And now we have added to these mountain retreats the greatest holiday asset of all — the magnificent lake behind Narrows Dam.

All these things spell summertime assets that the Southwest is short on. With proper promotion and development work we can expect a flood of tourists and holiday-seekers from Texas and Louisiana to sweep in upon the Nashville-Murfreesboro area this year.

And from all those visitors we can expect some to settle permanently in this region.

Hope should send a strong delegation to the Murfreesboro meeting March 30, and prepare to follow through on all plans that are unfolded for the promotion of the Narrows Dam lake and its resort facilities.

## Messenger Finds Money He Lost

Milwaukee, March 17 —(AP)—The Mitchell Street bank today was to get back the \$174,684 in cash and checks lost yesterday by two bank employees.

Roman Wojcinski, 41-year-old postoffice special delivery messenger, found the money — in a little black satchel — alongside a curb. He didn't know, for several hours, there was \$39,500 in cash and \$135,184 in non-negotiable checks in the bag.

After he picked up the satchel he was unable to open it, so he tossed it into his car trunk, and went about his job delivering mail.

Later, he opened the satchel and "never was more surprised in all my life" when he found it was packed with money.

He turned the satchel over to police. They counted and said not a cent was missing.

The two bank employees, Elmer Jennerjohn, 53, and Armin Schmidt, 35, had the satchel in their car when they left the bank yesterday morning. They intended to deliver it to another bank, but when they arrived there the satchel was missing.

They said it might have dropped out of their car when they stopped to do an errand between bank stops.

## Local Group to Attend Auction

A group of local cattlemen will attend a Polled Hereford sale at Gerard Hereford ranch, - Benton, on Monday March 20. Some of the outstanding cattle buyers of the nation will attend.

Transportation will be furnished to interested local persons. The group will leave the Chamber of Commerce office at 9:30 a.m. Monday.

Bob Shivers, livestock show manager, said today that an auction of this type would be well worth while to any cattlemen. All persons in this section interested are invited.

## Oglesby to Stage Program Monday Night

The Oglesby Junior High school Library club will present a special St. Patrick's Day program at the school Monday, March 20.

The program will start with the crowning of the St. Patrick's Day king and queen at 7:30. The ceremonies will be followed by two plays, "Say Uncle" and "Galloping Grandma". Tickets are now on sale for 25 cents each. The public is invited.

### WEATHER FORECAST

Arkansas: Fair, warmer this afternoon, in south tonight. Saturday cloudy, colder in north, central portions.

## Murfreesboro Lake Lots to Be Ready Soon

Lakeside lots on the great body of water which is forming behind the new Narrows Dam at Murfreesboro will be available within 60 days.

This was the information State Senator F. C. Crow brought The Star late last night on his return from a meeting of the Young Business Men's Association of Murfreesboro called to promote recreational facilities at the new lake.

The meeting, YBMA president, and was attended by Senator Crow of the 9th Senatorial District, comprising Hempstead, Pike and Montgomery counties; W. A. Hawkins, publicity director of the Arkansas Resources & Development Commission, of which George W. Beck of Hope is a member; John Bland, official photographer of the state commission; and David Parsons, representing the U. S. Corps of Engineers.

Mr. Parsons of the U. S. Engineers outlined how the government will dispose of lakeside lots. Senator Crow quoted Mr. Parsons as stating to the Murfreesboro meeting:

"Lots will be available in about 60 days.

They will be obtained from the government under 20-year lease, at a cost of approximately \$25 a year.

"They may be transferred between individuals but only with permission of the U. S. Engineers, and without profit.

"Time to make application for such lots will be advertised, and applicants may select first, second and third choices. The lot numbers will then be placed in a hat and drawn by lot.

Sites will be available near the town of Daisy, Ark., and at two lakeside points known as Cowhide Cove and Miller Creek Cove.

At last night's Murfreesboro meeting it was voted to set a playground association for the promotion of the lake area, the association to comprise two representatives from each participating town. This association will be formally organized at a meeting to be held at Murfreesboro two weeks from now, Thursday, March 30, when a name for the group will be chosen and officers elected.

The Arkansas Resources & Development Commission agreed to help promote the playground association's work, and to give statewide and national publicity to the Narrows Dam and its lake.

Nashville sent a large delegation to last night's meeting in Murfreesboro.

## Packed House at Showing of Minstrel

A capacity crowd attended the opening performance of the Kiwanis club minstrel last night at Hope High school and came away with glowing reports of an excellent show with 1 hour and 40 minutes of laughs, songs and everything that goes to make a good minstrel.

The end men were in good form and can now be identified. Amnesia — Lawrence Martin; Static — Mayor Lyle Brown; Mishap — Jimmy Miller; Ordinary — Fred Robertson; Atmosphere — Moody Willis and Asbestos — Frank Horton.

The specialty numbers were exceptionally good and Luke and Duke with their dog were hilarious. The closing event 17 lovely queen contestants joined in the chorus led by Director Taylor, Thompson and Wayman Taylor.

The Minstrel queen will be selected at tonight's performance.

## Wreckage of C-47 Plane Is Removed

Wreckage of a C-47 transport which crashed near Hope, Saturday March 11, killing its pilot, was moved away by truck yesterday by U. S. Airforce investigators. Three others in the plane parachuted to safety.

Hampered by mud, wreckage crews worked for days digging engines and pieces out of the ground. No announcement was made as to the findings of investigators.

## Civic Group Plans Program for Coming Year

Hope Civic Improvement Association in a regular meeting last night planned a luncheon for business and professional men and women on March 31. The group also discussed problems affecting Negro citizens and made tentative plans for a construction program this year.

## Engineers Have Plans for Taming Arkansas River

Pine Bluff, March 17 — (AP) — U. S. engineers explained their plans for taming the Arkansas river in this vicinity at a public hearing yesterday afternoon.

Work is planned along an 18-mile stretch. It'll be part of the overall footcontrol, hydro-electric power and navigation program for the Arkansas from Tulsa, Okla., to its mouth. Congress has approved the plan, but still must appropriate funds.

Included in the work near here will be construction of a new and permanent channel for more than half the 18 miles to straighten out sharp curves and eliminate erosion.

Bank stabilization will be another item, also to prevent erosion. The area of work lies partly in the Little Rock and partly in the Vicksburg engineer district. Representatives from both offices were here yesterday.

The Little Rock district has available \$600,000, which will be spent soon on bank reversionment and cutting a pilot channel to eliminate a wide U.

## Many Growers Sign for Insurance

Hempstead county cotton producers have started signing up for Federal Crop Insurance protection on their 1949 cotton crops and all eligible producers are urged by Earl N. Martindale, chairman PMA committee to make this sound business proposition of protecting their cotton crop investments a part of their farming plans.

He points out that the logical time to make out Federal Crop Insurance protection is now so that the money and labor which will be invested in the production effort will be protected.

The Federal Crop Insurance premium that the farmer pays represents a small addition to his investment of money and labor in producing a crop and with this addition the farmer protects what he invests against losses from the many unavoidable causes that can destroy or severely damage any farmer's crop. Federal Crop Insurance offers the farmers the kind of protection of his investment that has been a standard practice of businessmen for many years.

Any person with an interest in a cotton crop in Hempstead county at planting time may apply for the protection. Producers who apply now will have their applications accepted and their Federal Crop Insurance policy issued to them before the invest the money and labor which the policy protects unless, of course, they should be among the few that will be rejected in the interest of keeping the local county program as sound as possible.

Applications are being taken at the PMA office in Hope and by Guy H. Hicks, Route 1, Washington, T. A. Cornelius, Route 4, Hope, and J. G. Prescott, McCaskill, Arkansas.

## State's January Farm Income Shows Decline

Little Rock, March 17 — (AP) — Arkansas' January farm income was \$21,000,000 less than a year ago, but apparently it's nothing serious.

The agriculture department in Washington today reported the state's farm income from marketing last January was \$23,613,000 against \$44,757,000 in January, 1949.

But according to Miles McPeck, Little Rock agricultural statistician, January, 1949, was not a normal month. He attributes the figure for that month to sale of part of the state's large 1948 cotton crop then.

Figures in his office show the state's farm income in January, 1948, was a more nearly normal \$25,450,000.

McPeck explained that in 1948 Arkansas produced a large cotton crop, much of which was gathered late and not sold until January of the next year.

Mississippi had a similar experience. The Washington report today listed its January, 1950, income as \$17,677,000 as compared with \$69,315,000 in January, 1949. McPeck's figures show Mississippi's January, 1948, income was \$24,371,000.

## Teacher Fired for Communist Leanings

New York arch 17 — (AP) — A Brooklyn grammar school teacher accused of lying when she denied affiliation with a subversive organization was dropped from the board of education payroll today.

The board voted unanimously last night to oust the 37-year-old probationary teacher Mrs. Sylvia M. Schneiderman.

William Jansen reported: "The school superintendent Dr. William Jansen reported: Dr. M. Schneiderman.

"As early as last Dec. 28 I wrote Mrs. Schneiderman and asked her to come in to see me about her membership in the Communist party."

Jansen said one of his assistants then tried three days last week to get the teacher to appear but she refused.

Jansen who recommended the woman be fired charged that she had lied when she answered "no" to this question in her teaching license application:

"Are you now or have you ever been affiliated with any organization or group endorsing the Communist Fascist or Nazi movement?"

Jansen's formal coach was that Mrs. Schneiderman made "a false statement under oath."

The nine-member board's decision was issued at the end of a stormy hearing during which 250 persons jammed its meeting hall.

About 300 pickets paraded outside protesting the ouster. Some of the pickets were identified as members of the teachers union of which Mrs. Schneiderman is a member.

Mrs. Schneiderman the mother of two children was not entitled to a departmental trial on the charge before dismissal because she was only a probationary teacher. She would have received tenure next Tuesday after a three-year probationary period and been entitled to trial. She did not attend last night's board meeting and was reported ill at home.

She was said to be the first teacher in New York City fired on charges of lying about political affiliations.

## Needham Dies for Rape of Little Girl

Tucker State Prison Farm, March 17 — (AP) — A former taxi driver died in the Arkansas electric chair here today for the rape of an eight-year-old girl.

Hollis Edward Needham, 26, Blytheville, Ark., was pronounced dead at 7:38 a. m. He died without making a statement.

Needham was convicted of raping the child in his taxicab at Blytheville last May after taking her from the house where she was sleeping, without disturbing other occupants.

Bloodstains in the cab first directed suspicion at Needham. He had left Blytheville, but was traced to Hattiesburg, Miss., where he was arrested.

The trial jury found him guilty of rape "as charged," a verdict carrying an automatic death sentence.

## Criticism Bogs Foreign Policy

Washington March 17 — (UP) — President Truman's entire foreign policy legislative program appeared to be bogging down today as a result of congressional criticism of the state department and its operations.

Since congress reconvened almost three months ago no important foreign policy measure has passed the senate or house. Moreover there was no indication of any legislative speed-up despite Secretary of State Dean Acheson's call for "total diplomacy" to win the cold war.

Most of Mr. Truman's foreign policy proposals still are in committee. These include bills to extend the European recovery program to carry out the President's "point four" program for aiding underdeveloped areas and to authorize U. S. participation in the international trade organization.

Floor consideration of these and other vital measures have been held up first by GOP criticism of U. S. policy in Asia and secondly by Charles of Sen. Joseph R. McCarthy (R-Wis) that the state department is studded with pro-communists.

Acheson himself has been the target of much congressional criticism. As Sen. Owen Brewster (R-Me) put it:

"Secretary Acheson is fighting for his life. There is not a voice raised to defend him or his department in the senate."

Some influential legislators criticized Acheson's two recent West Coast speeches in which he promised aid for non-Communist Asia and offered the Russians a seven-point program as a basis for peace.

## Fifth Avenue Taken Over by the Irish

New York, March 17 — (AP) — Flannagans, Hannigans, O'Tooles and O'Flynn... the boys from Cork, Kerry, Dublin and Limerick will swing up Fifth avenue today in the world's largest St. Patrick's day parade.

Murphy's, Kellys, Sullivans and O'Brionds... transplanted Irish from Gaelic-speaking fishing villages, from mountain cottages, from Dublin's fair city will march proudly past St. Patrick's cathedral in honor of their beloved saint.

Rafferty's, Muldoons, Hogans and Morans... they and their dark-eyed fellows will get the day's festivities started when the two-and-one-half mile march gets underway at noon.

It will last at least five hours, and if the marchers were on one line it would stretch over 15 miles — more than the length of Manhattan island itself.

Always the world's biggest parade on the Saint's day, this year it is the "biggest ever" — expected to surpass even New York's previous efforts.

## New Cutback Aimed at Lump Appropriation

Washington, March 17 — (AP) — House Republicans aimed a new \$3,000,000,000 cut today at a lump sum \$30,300,000,000 appropriation bill already tentatively trimmed by \$1,200,000,000.

The bill carries most of President Truman's budget recommendations for federal agencies for the 1951 fiscal year, starting next July 1. It is due to be considered by the house appropriations committee starting next Monday and is slated for floor debate March 27.

The tentative reduction was reported by members of the powerful "central" subcommittee of the appropriations group. The cut does not affect foreign aid funds, nor does it apply to the so-called permanent and indefinite appropriations and trust funds which cannot be trimmed. All together they account for about \$12,000,000,000.

The committee action would make the federal deficit for the fiscal year 1951 about \$4,000,000,000 assuming that congress sticks to its present determination not to raise taxes this year.

Another cut of \$2,000,000,000 in the omnibus measure would lower the anticipated deficit to \$1,000,000,000 and that is what GOP fiscal leaders are driving for.

"If we are going to get close to a balanced budget, this bill ought to be around \$26,000,000,000," Rep. Taber (R-NY) told newsmen. Taber, top Republican on the appropriations group, would not comment on the reported cut of \$1,200,000,000 already tentatively made.

Republicans may try to effect more reductions when the bill goes before the full committee.

But some of their strategists believe the place to do the cutting is on the house floor. Their theory is that if any substantial economies are effected in the committee, Democratic majority will claim he credit.

They also figure that, this being a congressional election year, they can pick up strong backing for amendments to trim the scores of items that make up the bill's totals.

Some Republicans are talking about a blanket cut of 10 per cent on all items. They believe this would pass on a roll-call vote.

## Library Club Featured in Publication

In the March 15 issue the Library Journal, a publication which is often called the bible of librarians, features a two page story and a picture of the Hope High School Library Club for 1949-50. The library club, which is published by the R. K. Bowker company, New York city, is a magazine used extensively by public and school librarians throughout the United States and some foreign countries.

The occasion for the feature story by the Journal is the initiation of a ritual service for formal initiations for library clubs by Mrs. W. M. Sparks, local club sponsor, high school librarian, and study hall supervisor. Mrs. Sparks received a letter of high commendation from the editor and the introductory paragraph of the Journal's story reads, "Mrs. W. M. Sparks, librarian of Arkansas Hope High School, is responsible for developing an initiation service for new members of the library club."

The initiation plan is presented here as a guide to the many student library clubs in this country now developing their own initial ritual. The feature then gives in detail the rituals, which include: the fundamental purposes of the Hope High School Library; one of the main principles which govern the selection of its resources; desirable personality traits for student librarians and all librarians, requirements for membership, and the club pledge.

## Man to Die for Slaying of Wife in 1949

Little Rock, March 17 — (AP) — Robert Louis Smith apparently will die April 28 for the slaying of his former wife here last May 4.

The U. S. Supreme Court has refused to review the death sentence against Smith, a former Texas convict, court officials notified Smith's attorney yesterday.

Smith was convicted of fatally shooting Sallie Mae Barner, 40, near Little Rock's university hospital, where she was employed as a nurse's aide.

Smith, 41, has served a three-year prison term in Texas for a bigamous marriage to Mrs. Barner.

His conviction of first degree murder and the death sentence were upheld by the Arkansas Supreme court.

## College Slayer to Die in Electric Chair

Lancaster, Pa., March 17 — (AP) — A sobbing Franklin and Marshall college student was marked last night for the death in the electric chair in the "impulse" slaying of Marian Louis Barker.

A jury of seven men and five women found dark-haired Edward Lester Gibbs, 25-year-old senior from Pitman, N. J., guilty of first degree murder with the death penalty mandatory.

The verdict came after the jurors had deliberated four hours and 45 minutes.

Gibbs' attorney, W. Hensel Brown, made an immediate oral motion for an appeal and said he would file a written plea within the allotted 15 days. If the motion is denied, Brown said he will appeal to the state Supreme court.

## Atom Smasher Produces a New Element

Berkeley, Calif., March 17 — (AP) — The atom smashers have produced another new element, a strange, invisible substance which seems to fit dramatically into the jigsaw puzzle of creation.

The new element is number 98 in the list of known elements which make up the universe. It does not now exist naturally on earth, but may have for a few fleeting minutes "in the beginning," when matter was formed.

The discovery was reported today by a team of University of California scientists working under contract with the atomic energy commission. They are Dr. Stanley G. Thompson, Dr. Kenneth Street, Jr., Dr. Albert Ghiorso and Dr. Glenn T. Seaborg.

Number 98 is the sixth addition to the roster of elemental substances since the dawn of the atomic age. Before that, there were only 92 known elements and number 92 was uranium. All the new ones have come from building up uranium by bombarding it with nuclear particles.

Number 93 was neptunium, a short-lived substance which automatically turned to element 94, plutonium the atom bomb fuel. Number 95 americium and number 96 curium were next. Last January the research team found number 97 and named it berkelium after this university city.

The researchers produced No. 98 by bombarding curium with alpha particles which are the cores of helium atoms. The result was the heaviest atom ever known. But was so unstable that it turned into something else after a couple of hours. They had to work fast to identify it chemically.

Red Cross Donations

The Hempstead county chapter of the American Red Cross through home service is continuing its program of financial assistance and counseling to the veterans of Hempstead county.  
During January and February of this year, Mrs. Lucille Carrigan, home service secretary, reports that 15 servicemen, 19 veterans and six dependents of service men and veterans were given assistance through the Hempstead county Red Cross. Inquiries and referrals for the two month period totaled more than 100.

DOROTHY DIX Bachelor's Question

Dear Miss Dix: Which is the happier, the married man or the single man?  
BACHELOR  
Answer: It depends upon the man and the woman he marries. Neither marriage nor bachelorhood is a safe choice for the man who wants a sure thing in happiness, for he is just as likely to find bliss or misery in one estate as the other.  
There are men who are born domesticated. They never had a wild impulse nor a longing for freedom. They follow their instincts by slipping their necks in the matrimonial yoke as soon as they are grown, and they are happier with almost any sort of wife than they would be single because they find their delight in the ordered existence.  
On the other hand, there are plenty of men who are collocate by nature and whom no wife can ever tame or housebreak. They love themselves better than they are capable of loving any woman, and they always begrudge the money they have to spend on a family and that they would so much prefer spending upon themselves. They are born with a wandering foot and no wife, not even if she be a paragon of all of the charms and virtues, can hold them.  
Consider Own Temperament  
Just as the born husband is happiest married, so is the born bachelor happiest single. So when a man debates the relative merits of matrimony as appertaining to and concerning his individual happiness, he must take his own temperament into consideration.  
Generally speaking, and for the average man, marriage tends to promote happiness and well-being. The best proof of this is found in the fact that practically every widower remarries. After having experienced marriage, and being given another chance at singleness, he voluntarily closes the holy estate as the preferable one.  
Doctors say that married men are not only happier, but that they live longer because they lead a more settled life, and because their wives nagging makes them care of themselves. They say many a man is kept from pneumonia by his wife's continual reminder to put on his rubbers.  
EX-ARKANSAN SLAIN  
Elizabethtown, Ky., March 17 — (AP) — Ralph Miller, 33, a farmer, faces a charge of murder for the slaying of his brother-in-law, Sheriff J. A. Nail said the brother-in-law, Rudolph Montgomery, 35, a laborer formerly of Paragould, Ark., was shot to death at his home here last Tuesday.  
No motive was ascribed.  
BURNS FATAL  
Morrliton, March 17 — (AP) — Mrs. Ruby Hilda Powell, 34, died at a hospital here yesterday of burns suffered in explosion of a stove at her home in Perry county last Dec. 11. She was the wife of Robert Powell. The funeral was to be held today at Perryville.

keep company with him. What is your advice on the subject?  
TWO KINDS OF LOVE  
Answer: My advice is to stick to the domestic brand of love. There may not be so much kick to it as there is in bootleg romance, but it won't give you such a headache, either. Quit thinking about this young man and get seeking thrills. Center your head interest on your husband and children. There is a lot more percentage in that than there is in growing hot and cold over stray young men you see on the street.

College Notes  
The thirteen outstanding freshmen of Henderson State Teachers college were announced in the weekly assembly program at Henderson State Teachers college this morning. Miss Peggy Graves, senior from DeQueen and president of the Kappa Delta Pi, announced the thirteen outstanding freshmen. Among them are Jo Ann Carrigan from Washington with a 2.93, Nancy Camp from Hope with a 2.69, Sidney Parker Davis from Prescott with a 2.64, Darrell Carnk from Hope with a 2.50.  
Thomas Kinser, Jr., of Hope, a music student in the University of Arkansas, has made an arrangement for strings of Bach's Preludes XXII, which will be featured at a concert of the University Little Symphony and Fayetteville Youth Orchestra March 23 in Fayetteville. Kinser is student conductor of the Razorback band.  
Hospital Notes
